

## DANIEL HUXTABLE - 870730 VISUAL COMMUNICATION 2019

# FIGHTWEAR STORE UK OPEN

Fightwear Store is an award winning international kickboxing brand. After 5 years of great success they have decided to start an anual event where the best kickboxers in the UK can battle it out to be the UK Open Champion.

We would like a new image and new colours for our event side of the business. However we would like to keep the typography very similar. We currently use Bebas Neue for our bold heading font, we don't want to reuse it but would like a font very similar.

**Deliverables**:

- Logo
- Colours and Identity
- Brand Manual
- Website (Computer)
- Website (Mobile)
- Poster/Folded Flyer

#### Research

When researching this project I had three main inspirations which allowed me to see both the positive and negatives of visual indetity. The two EUSA logos allowed me to see the closest thing to the Olympic style theme I was looking for without having the get lost within the typical Olympic colour scheme. The YOKSO Dutch Open identity really allowed me to see a good use of colour and typography combined through which I was able to pick bold and bright colours alongside a strong visual typographical typeface.

#### Logo Development

When developing my logo I wanted something which was bold and strong and had an 'Olympic' style to it. This was to add prestidge to the logo and ultimately the event. By adding the Union Jack to the logo I believe that it has elevated the identity of the brand. The bold typography allows the logo to be seen at all sizes from small to big.

#### Accessibility & UX Report

When creating this project I made sure that User Experience (UX) was the most important aspect to focus on. When creating my mobile version of the website I made sure to keep the buttons big and bold allowing the user to easly function throughout the website on a small screen where people struggle to click buttons on a screen.

I also made sure that the correct colours were chosen for the typography on both the website and the print material. In order to allow the reader to easily read the words on the media material.

I have chosen a hamburger menu when developing my website for mobile, this is to condense down the content on the screen to keep it clean on a smaller screen. I also have done a drop down menu for the register page again to keep the content and clutter to a minimum.

#### About The UK Open

The Fightwear store UK Open is an a class competition associated with WAKO GB (World association of kickboxing organisations. the UK Open is hosted by international award winning kickboxing brand Fightwear Store UK. The aim of the UK Open is to gather the best fighters in the United Kingdom in one place and for them to fight head to head for the title of the uk open champion. The UK Open is held in a different country ever year the 2020 Games will be in swansea, Wales.

#### **Our Ethos**

We believe that good sportsmanship should be at the centre of every sport! Especially in combat sport therefore alongside WAKO GB (World Association of Kickboxing Organistations) we have a set ethos which drives our tournament and staff. Now that Kickboxing in an IOC (International Olympic Committee) recognised sport our regulations alongside our ethos have become stricter. Every athelete must be fit to fight and gone through our onsite medical team to determine if this is acceptable.

#### Colours

We have strict colour presets which need to be adhered to. Our colours have all been picked through careful testing and using the colour index allowing us to get our desired response. Our core colours are to be used for our print and web material and the alternative are only to be used if the core colours do not fit the style of design.

## **Our Core Colours**

#### Tatami Blue

**White** 

**Black** 

Use: Typography or Iconography

### Typography

Our chosen typefaces have been selected by a pannel of experts from both the design and kickboxing industry. We have two typefaces which we have implemented into our branding.

#### Antonio Bold abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ

Antonio Bold is for our print and web material it is our logo font and used for our headings.

#### DIN Alternate Bold abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ

DIN Alternate Bold is our corporate font for all official documents and used for body copy text.

## Imagery

All imagery used must be photos from our official photographer Emily Aston from Ems Photos and Beyond The Battle Productions.
